Feeds'n Needs is premier animal feed and supply retail division of Shur-Gain/Trouw Nutrition, a company that is well known for its constant efforts in understanding how to optimize animal nutrition and health. Before our stores existed, all of this knowledge was only accessible to the wholesale market. In the early years, Shur-Gain had four main feed production plants in the Maritimes, with small retail spaces within carrying essential animal health and farm maintenance products. With so much growth in the industry, came more opportunities to take our passion for animal well-being to the next level and expand our retail locations: making our expertise available to not only animal owners, but pet lovers like you and us!
